

GUIDELINES FOR NON-CODE RELATED COURSES

The Johnson County Contractor License Review Board Education Committee provides the following outline for judging the non-code related courses submitted for elective continuing education unit credit. All courses will be required to exhibit a relationship to the three elements of Committee Defined Criteria. If the Committee Defined Criteria are met, topics listed under Construction Science and Core Criteria may be considered.

Committee Defined Criteria

1. Relevance
2. Construction Relationship
3. Public Welfare Orientation

Construction Science and Core Criteria

1. Construction Law
2. Construction Estimating
3. Construction Scheduling
4. Construction Accounting
5. Construction Plan Preparation (*example: drafting, computer aided drafting topics founded in construction*)
6. Construction Materials and Methods
7. Construction Site Soils Analysis
8. Construction Related Economics
9. Construction Site Safety
10. Construction Management and Site Supervision
